MEMORANDUM FOR: NPIC Records Administration Officer

SUBJECT : Revision of Records Control Schedule for NPIC/Collateral Support Division, Reference Branch, Information Section Item 5d and e.

1. According to the CODIB agreement dated 30 January 1961, copy attached, intelligence documents produced by the USIB community may be destroyed five years after such documents become inactive, except for the record copies which are to be retained and serviced by the producing agency.
2. In accordance with this agreement, your request to retire Navy and SAC reports dated prior to 1961 for an eight-year period should be denied. However, you raise an interesting technical point on the wording of the agreement and whether or not the provisions are meant to apply to collections dated prior to the agreement. We feel certain that the other agencies are acting in accordance with the USIB instruction and that your collection of material duplicates theirs. We will expect you to coordinate with Navy and SAC to determine the degree of duplication of the collections, hopefully expecting that you will remove your material from the Records Center before the eight years you have requested.
3. In order to assist you in your records program I am approving the transfer of these retirement requests for the eight-year period, inasmuch as the material is dated prior to 1961. Future deposits of material dated 1961 and subsequent will be approved for retention in the Records Center for a five year period. The Records Control Schedule has been amended to incorporate these instructions and the Records Center has been notified. Your requests for retirement of PI Reports produced by Navy (1953 - 1959) and by SAC (1955 - 1959) have been forwarded to the Records Center.

MEMORANDUM FOR: CIA Records Administration Officer

SUBJECT: Revision of NPIC Schedule - No. 28-66

1. It is requested that the following revision be made to the records schedule of the Collateral Support Division, Reference Branch, Information Section:

Items 5d and 5e disposition instructions be changed to read:

Temporary. Retain in file area for 7 years. Send to the Records Center to be held for 8 more years and then to be reviewed by a member of the Collateral Support Division for final disposition.

2. The initial deposits will vary somewhat from subsequent deposits. They will consist of all described material which is dated 1959 or before. Some of these documents date back many years prior to 1959, but we are asking that they be held as a group with 1959 considered as the document dates. Thereafter, 1960 records will be sent to the Center in 1967, 1961 records will be sent in 1968, etc.

3. If you concur, please send a copy of this memorandum and the attached form 140's to the Records Center. We would like to move this material out of [] during Operation Cleanup.

MEMORANDUM FOR: Chief, Records Management Office, Support Staff

SUBJECT: Retirement of PI Keys

1. There are nineteen boxes of Photo Interpretation keys ready to be retired to Records Center from the Information Section. This collection is similar to the PI keys previously sent in March 1966.

2. To the best of my knowledge this is the last time the CSD/Information Section will be requesting this type of special retirement service. In the event that the need should arise again, the Information Section will attempt to revise its Records Control Schedule.

Memo for the Record

July 10, 1967 met with NPIC Budget officer and ARO to discuss the disposition of NPIC copy of Domestic Travel Form 540b and the Property Obligation Authorization.

NPIC holding copy of Form 540b long after obligation is liquidated. Checked with Audit Staff and learned that Audit Staff uses O/Finance copy for audit purposes and the operating offices can destroy their copies when obligation has been liquidated. [redacted] in Audit Staff said the auditors can go to the expenditure run to check the liquidation code if any question arises.

On Property Obligations --

Operating offices are required to keep their copies for audit purposes. Audit Staff performs audits within 13 months, after which operating offices may destroy the documents provided there are no questions.

NPIC notified.

DISPOSITION INSTRUCTIONS

1. REFERENCE AND WORKING FILES

These are reference or working files maintained to produce pre-plotting, finished plots, Mission Coverage Plots (MCP's) or to support responses to related requirements levied on the division. The files include but are not limited to these categories:

- Index photos
- Reference Maps and Charts
- Manuals on photography
- Flight data books
- Coverage statistics
- MCP reference file
- Cloud category overlays
- MCP plot sheets
- Golden Tree index sheets
- Cumulative coverage
- Mission track boards
- Domestic coverage index
- Photo mosaic work sheets
- project
- Operational cables
- Technical processing mission projects
- Airfield identification keys

105.0

Temporary. (a) Destroy when no longer needed for current reference purposes. (b) Cables which are dated prior to 1963 may be kept for 15 years before they are destroyed.

2. FINISHED PLOT RECORDS

These are 25"x30" finished plot sheets which are held pending final edit.

1.0

Transfer to PSD/ICB after edit is accomplished (usually about one month). PSD/ICB will retain as a permanent record.

Approved For Release 2005/11/21 : CIA-RDP78-00487A000400180001-0
